"Superb quality. Client committed. Allen is the only choice for quality service."

- Neumann Mendro Andrulaitis Architects

Project Highlights

1,628 SF VILLA

This house was transformed from a classic California-ranch-style beach bungalow into a modern villa retreat. The client's vision was to create a tropical environment and open-air dwelling reminiscent of her childhood home in the Seychelles Islands, off the eastern coast of Africa. Stone from the Dominican Republic, a metal roof, and lush landscaping create a modern retreat. Interior living spaces open to generous outdoor patios, fountains, and a walled garden.
